

CURRICULUM VITAE

Tesfaye T. Tesso

**Kansas State University, Department of Agronomy
Manhattan, KS 66506**

Tel: 785 532 7238; Fax: 785 532 6094; E-mail: ttesso@ksu.edu

EDUCATION

- | | |
|------|--|
| 2002 | PhD Kansas State University, USA |
| 1997 | MS Alemaya University of Agriculture, Ethiopia |
| 1991 | BS Alemaya University of Agriculture, Ethiopia |

EMPLOYMENT

- | | |
|----------------|---|
| 2012 – Present | Associate Professor, Sorghum breeding, Kansas State University |
| 2008 – 2012 | Assistant Professor, Sorghum breeding, Kansas State University |
| 2004 – 2008 | Researcher and leader, National Sorghum Research Program, Ethiopian Institute of Agricultural Research. |
| 2002 – 2003 | Post-doctoral Research Associate, Purdue University, West Lafayette, USA. |
| 1999 – 2002 | Graduate Research Assistant, Kansas State University, Manhattan, USA. |
| 1997 – 1998 | Lecturer, Alemaya University of Agriculture, Ethiopia. |
| 1995 – 1996 | Graduate Student, Alemaya University of Agriculture, Ethiopia. |
| 1993 – 1994 | Assistant Lecturer, Alemaya University of Agriculture, Ethiopia. |
| 1992 | Graduate Assistant, Alemaya University of Agriculture, Ethiopia. |

PROFESSIONAL ACCOMPLISHMENTS AND CONTRIBUTIONS

Research and Extension

Variety/parent line/germplasm releases (5 food sorghum and 2 malt sorghum varieties, 1 pearl millet variety, 6 pollinator parents and several B and R lines in pipeline)

- Released 6 drought tolerant pollinator parents at Kansas state University
- Released 2 sorghum varieties adapted to mid altitude environments of Ethiopia
- Released the first malt sorghum varieties (2) with high diastatic power
- Released 1 sorghum variety adapted to the highlands of Ethiopia
- Released the first pearl millet variety (1) for Ethiopia
- Developed and released 2 food grade commercial sorghum hybrids. These are the first hybrids to be released in Ethiopia

Other research outputs of practical relevance to grain and forage/biomass sorghum production and research

- Development of superior Acetolactate synthase (ALS) and Acetyl co-enzyme -A carboxylase (ACC) inhibitor herbicide resistant seed and pollinator parents (in pipeline). Some of these lines combine both ALS and ACC resistance traits and will be a significant addition to herbicide resistant sorghum gene pool.

- Identification of sources of genetic resistance to stalk rot diseases and development of improved inoculation methods for fusarium stalk rot.
- Assessment of risks associated with deployment of low lignin mutations for cellulosic feedstock production.
- Elucidated the effect of high digestibility allele (hd^+) dose on digestibility of sorghum endosperm proteins and its implication for improving sorghum nutritional value.

Technology multiplication and promotion

- Coordinated a participatory community based seed multiplication initiative and reached over 10,000 farmer households in four regions of Ethiopia with new *Striga* resistant varieties.
- Organized and led a nationwide demonstration of integrated *Striga* management technology.
- Led the promotion and distribution of improved sorghum varieties resistant to the parasitic weed, *Striga*.

Teaching and graduate education

Teaching:

- AGRON 970 (Advanced Plant Breeding)
- AGRON 980 (Molecular Tools for Genetic Analysis)

Graduate student training:

- **Students graduated from my program or under my direct supervision: 7**
 - Samuel Mamo (MS), Addis Ababa University, Ethiopia, graduated in 2006
 - Dechassa Hirpha (MS), Haramaya University, Ethiopia, graduated in 2006
 - Taye Tadesse (MS), Haramaya University, Ethiopia, graduated in 2007
 - Wasihun Legesse (MS), Hawasa University, Ethiopia, graduated in 2008
 - Alemu Tirfessa (MS), Hawasa University, Ethiopia, graduated in 2009
 - Jayfred Godoy (MS), Kansas State University, graduated in summer 2011
 - Frank Maulana (MS), Kansas State University, graduated in summer 2011
- **Current graduate students: 5**
 - Adedayo Adeyanju (PhD)
 - Frank Maulana (PhD)
 - Dilooshi Weerasooriya (PhD)
 - Jebril Ali Mohamed (PhD)
 - Lauren Lang (MS)

PARTICIPATION IN NATIONAL, REGIONAL AND INTERNATIONAL ACTIVITIES

2008-Present

- Leading one of the largest sorghum breeding programs in the United States

- Engaged and interacted with stakeholders, scientists, philanthropic organizations with vested interest in sorghum research and development. These include:
 - National Grain Sorghum Producers Association
 - Kansas Grain Sorghum Commission
 - USDA-ARS
 - USDA-FAS
 - International and regional research institutions (ICRISAT, Bioinnovate, ASARECA)
 - Foundations
 - Private industries (national and international)

2004 – 2008

- Besides discharging the national responsibility to address local problems of sorghum production, I participated in regional and international sorghum research activities through the following organizations:
 - INTSORMIL-Crop Research Support Program.
 - The Generation Challenge Program/Rockefeller Foundation.
 - Syngenta Foundation.
 - Alliance for Green Revolution in Africa (AGRA).
 - Eastern and Central Africa Agricultural Research Association on Sorghum and Millets (ECARSAM).
 - Leading multi-national project supported by the European Union on mitigation of drought stress in sorghum.

PROFESSIONAL SERVICES

- Associate Editor, Journal of Plant Registrations (2011-present)
- Chair Sorghum Improvement Conference of North America (2011-2013)
- Team leader for Ethiopia national variety release technical committee (2005-2006).
- Secretary of the national task force overseeing multiplication and dissemination of *Striga* management technology in sorghum (2006-2008).
- Elected member of the Executive Committee of Crop Science Society of Ethiopia (2004-2006).
- Member of steering committee for sorghum and millet Research network of Association for Strengthening Agricultural Research in Eastern and Central Africa (ASARECA) (2004-2007).
- Host country coordinator for International Sorghum and Millet Research (INTSORMIL-CRSP program) (2004-2008).
- Served the national graduate education programs in Ethiopian Universities (Haramaya, Addis Ababa and Hawasa) through serving as major advisor, co-advisor, examiner and hosting graduate students while conducting their research at the national program (2005-2008).
- Served the Agriculture profession by participating in a number of national, regional and international activities. These include:
 - Review of grant proposals for the Ethiopian agricultural research organization, USAID-AMAREW project, ASARECA and Bioinnovate.

- Helped with starting on a new local agricultural journal (Ethiopian Crop Science Journal)
- Assisted local communities, government organs and nongovernmental development organizations by consulting and providing training on seed production, *Striga* management and technology dissemination.
- Reviewed manuscripts for peer reviewed journals (23 manuscripts for 11 international journals in the last three years).
- Served as panelist on identification of small holder farm constraints and setting research priority for sorghum and millet
- Participated in Task Force II online consultation of the Global Partnership Initiative for plant breeding capacity building (GIPB) organized by the Food and Agricultural Organization (FAO).
- Co-organized the international symposium on *Striga* management conducted in 2006, Addis Ababa Ethiopia.

EXTERMURAL FUNDING ATTRACTIONS (Grants and sub-contracts)

- Attracted over \$390, 000 in grants and \$310,000 in sub-contracts to support the national sorghum research program during the four years of my tenure in Ethiopia (donors include: INTSORMIL-CRSP, The Alliance for Green Revolution in Africa (AGRA), USAID/USDA, Association for Agricultural Research in East and Central Africa (ASARECA)).
- Attracted over \$1.3 million in grants and sub-contracts at Kansas State University. Donors include: Kansas Sorghum Commission, National Sorghum Checkoff Program, Global Crop Diversity Trust, USDA-FAS, USDA-DOE, Kansas State Center for Sorghum Improvement, Kansas State Center for sustainable Energy, Agricultural Research and Extension Trust, Malawi.

AFFILIATIONS AND MEMBERSHIP TO PROFESSIONAL SOCIETIES

- Gamma Sigma Delta Honor Society
- Agronomy Society of America
- Crop Science Society of America
- Crop Science Society of Ethiopia
- Crop Protection Society of Ethiopia
- Ethiopian Weed Science Society

PUBLICATIONS

Publication summary: **36** refereed journal articles, **4** book chapters, **4** articles in proceedings and international newsletters, **26** abstracts and over **15** invited talks.

August 2010, Mead Nebraska.

7. Tesso, T. 2010. Overview of sorghum breeding program at Kansas State University. Department of Grain Science, Kansas state University.
8. Tesso, T. and G. Ejeta. 2007. Integration of host plant resistance with agronomic options reduces scourge of *Striga* in Sorghum [Sorghum bicolor (L.) MOENCH]. Third General meeting on Breeding Biotechnology and seed systems for African crops organized by the Rockefeller Foundation, March 26-29, Maputo, Mozambique.
9. Tesso, T. 2007. The State of sorghum and millet production in Ethiopia and major constraints. Project development workshop, ICRISAT/BMGF, Nairobi Kenya, Nov 28.
10. Tesso, T. 2007. On farm evaluation of integrated *Striga* management (ISM) package in Ethiopia, National ISM Technology Launching Workshop. Ministry of Agriculture, Addis Ababa, Ethiopia, Feb 20, 2007.
11. Tesso, T., A. Deressa, Z. Gutema, A. Adugna, B. Beshir, T. Tadesse, O. Oumer and G. Ejeta. 2006. Integrated *Striga* management package provides relief from plague of witchweed. International workshop on scaling up and scaling out of improved agricultural technologies. Addis Ababa, Ethiopia.
12. Tesso T. 2005. Parasitic weed *Striga* poses threat to sorghum production in Ethiopia – Host plant resistance: a central component in integrated *Striga* management approach. National workshop on management and control of *Striga* in sorghum. Addis Ababa, Ethiopia, October 15-16, 2005.
13. Tesso T. 2005. Relief from the scourge of which weed in Ethiopia -Integrated *Striga* Management (ISM) technology. National workshop on management and control of *Striga* in sorghum. Addis Ababa, Ethiopia, Oct15-16, 2005.
14. Ejeta, G., Tesso T. and Z. Gutema. 2005. Integrating agronomic options for control of *Striga* in sorghum. Agronomy Society of America.
15. Tuinstra MR, Tesso T, Claflin LE, Henzell RG, Borrell A, Seetharama N, Ejeta G, Rosenow DT. 2000. Breeding for resistance to stalk rots in sorghum. Global 2000: Sorghum and Pearl Millet Diseases III, Guanajuato, Mexico, September 23 – 30, 2000.
