

Parsons, Kansas Dryland Soft Winter Wheat Variety Trial, 2024-2025

Kansas State University Southeast Research-Extension Center, Parsons, Labette County

Planted	10/10/2024
Previous crop	corn
Primary tillage	conventional
Irrigation	none
Harvested	6/25/2025
Fertility	150-50-50 lbs/a N, P, K
Herbicide	0.4 oz/a Finesse

The Parsons SWW trial had a dry start and not much of the crop emerged until November. The dryness persisted through March; however, conditions became extremely wet from mid April until harvest. (Photo G. Blackburn)
